Mr. McCue presented the capital improvement project designs and master plan overview. He explained improvements at Frohring Meadows will include an enclosed shelter, additional parking and additional open picnic shelters for picnic/wildlife viewing areas.

Mr. Pira shared that Beaver Creek will include stream restoration with a natural stream design utilizing grant funding from WRSP. He explained the project will improve water quality since it has been a channelized ditch, and it is a big wetland restoration project. Mr. Pira said Stapel's Meadows has 5 existing farm ponds and has potential to be improved for wildlife habitat, he mentioned US Fish & Wildlife Service is interested in possibly providing grant funds for wetland restoration.

Ms. Lynch presented Big Creek improvements to the board that will include tree house camping options, a playground area, a single track mountain bike track, upgrades to Deep Woods shelter for year round use, renovations to existing trail infrastructure and fishing platforms. Mr. Lah inquired about how many tree house campsites were planned and rental rates. Mr. McCue and Mr. Oros responded the plan is for two, and there will be a charge to use them.

Mr. Lah inquired about possible primitive walking trails at Stapel's Meadows for public access and use. Mr. McCue explained trail development is determined based on the management plan process. She also asked how much of the cost is provided through grants, Mr. McCue replied that they anticipate roughly \$845,000 for Beaver Creek and \$20,000 for Stapel's Meadows.
